Education

Pamantasan ng Lungsod ng Maynila

Bachelor of Science in Computer Science

General Luna St., Intramuros, Manila

Present

Bachelor of Science in Nursing

1st Year Coursework—Shifted

GWA: 1.80909

July 18, 2026

FEU High School

Science, Technology, Engineering, and Mathematics

High School Diploma—With Honors

Nicanor Reyes St., Sampaloc, Manila

June 30, 2025

Experience

Linux Systems Administration

Manila, Metro Manila

January 2026 – *Present*

- Created and maintained '[NeKoRoSHELL](#)'
 - Highly-customizable DE built on top of the Hyprland WM for an optimized Arch experience.
 - Utilized self-made bash scripts and binaries to provide QoL features on par with Windows.
 - Additional 'DLux' variant released as an optional upgrade to replace major components with a unified Qt-based UI framework.
 - 53 stars on GitHub; with forks by people who loved the concept, and issues diligently fixed.

Software Developer

Manila, Metro Manila

June 2023 – *Present*

- **Open Source Contributor**
 - Engineered software and utilities for personal use; released as free open-source code for the public as common good.
 - Designed and wrote a lightweight Python web backend called '[NeKoRoPIE](#)'. It supports memory concurrency, CORS, and is hardened via JWT authorization and rate limiting.
 - Released a full-stack Discord bot template built on top of NeKoRoPIE which can handle WebSockets and RESTful API endpoints.
- **PaaS/SaaS Developer**
 - Currently developing 'nexsplit', a custom matchmaking platform akin to 'FACEIT' but designed for a mobile competitive shooter game. It is also based on NeKoRoPIE.
- **Low-level Programming**
 - Created a prototype OpenGL 3D renderer via C++ to practice memory management and potential for systems programming.

- **Freelance/Contracted Game Developer**

Remote/Manila, Metro Manila
May 2023 – *Present*

- Hired for Unity mobile game development; under NDA.
- Full-cycle development of solo projects; from prototypes, to release-worthy playable games.
- Utilized the C# programming language to prototype and polish game mechanics:
 - Survival - inventory system, item durability, hunting and gathering;
 - Shooter - weapon types, enemy AI via state machines and behavior trees; and
 - General QOL and Optimizations - Cross-platform input management, object pooling, and proper memory management.

Freelance Graphic Designer

Remote/Manila, Metro Manila
May 2018 – *Present*

- Design and produce motion graphics, layouts, and illustrations.

Leadership and Activities

Apolinario Mabini Elementary School

Quiapo, Manila
Feb 2025 – March 2025

- **Mother Tongue Tutor**
 - Tutored Grade 6 students who were struggling with the subject.

FEU HS BYTES

FEU High School, Manila
Jul 2024 – Jun 2025

- **Public Information and Management Officer**
 - Operated the social media pages belonging to the organization.
 - Disseminated publication materials relevant to the organization.
 - Amassed a social media following of more or less than three hundred (300) students during the term.
- **Team Supervisor**
 - Led the Media and Publications Committee.
 - Published a combined total of twelve (12) self-made graphical/layout and motion designs.

Asian Hospital and Medical Center

Alabang, Muntinlupa, Metro Manila
Jul 2024

- **Trainee**
 - Attended a week-long seminar to learn about what it is like to be a healthcare worker.

FEU HS STEM Society

FEU High School, Manila
Aug 2023 – Jun 2024

- **Layout Artist**
 - Created and published a total of six (6) layout designs for the organization's publication materials.
