Education

Pamantasan ng Lungsod ng Maynila

Bachelor of Science in Computer Science

General Luna St., Intramuros, Manila

Present

Bachelor of Science in Nursing

1st Year Coursework; Shifted

GWA: 1.80909

July 18, 2026

FEU High School

Science, Technology, Engineering, and Mathematics

Nicanor Reyes St, Sampaloc, Manila

June 30, 2025

Experience

Linux Systems Administration

- Created and maintained ‘NeKoRoSHELL’, a custom Linux desktop configuration suite built for the Hyprland window manager to optimize the Arch Linux experience.
 - Utilized self-made bash scripts and binaries to provide quality-of-life features on par with Windows.
 - Released ‘DLux’ variant as an optional upgrade to its legacy counterpart that replaces everything with a unified Qt-based UI framework.

Manila, Metro Manila

January 2026 – *Present*

Software Developer

- **Open Source Contributor**
 - Engineered software and utilities for personal use; released as free open-source code for the public.
 - Designed a lightweight and deployable web backend called ‘NeKoRoPIE’. Written in Python, it supports memory concurrency and is hardened via JWT authorization and rate limiting.
 - Released a full-stack Discord bot template built on top of NeKoRoPIE which can handle WebSockets and RESTful API endpoints.
- **Low-level Programming**
 - Created a prototype OpenGL 3D renderer via C++ to practice memory management and potential for systems programming.
- **PaaS/SaaS Developer**
 - Currently developing ‘nexsplit’, a custom matchmaking platform akin to ‘FACEIT’ but designed for a mobile competitive shooter game. It is also based on NeKoRoPIE.

Manila, Metro Manila

June 2023 – *Present*

- **Freelance/Contracted Game Developer**
 - Hired for Unity mobile game development; under NDA.
 - Utilized the C# programming language to prototype and polish game mechanics:
 - Survival - inventory system, item durability, hunting and gathering;
 - Shooter - weapon types, enemy AI via state machines and behavior trees; and
 - General QOL and Optimizations - Cross-platform input management, object pooling, and proper memory management.
 - Full-cycle development of solo projects; from prototypes, to release-worthy playable games.

November 2022 – *Present*

Freelance Graphic Designer

- Design and produce motion graphics, layouts, and illustrations.

Manila, Metro Manila

May 2018 – *Present*

Leadership and Activities

Apolinario Mabini Elementary School

- **Mother Tongue Tutor**
 - Tutored Grade 6 students who were struggling with the subject.

Quiapo, Manila, Metro Manila

Feb 2025 – March 2025

FEU HS BYTES

- **Public Information and Management Officer**
 - Disseminated publication materials relevant to the organization.
 - Amassed a social media following of more or less than three hundred (300) students during the term.
- **Team Supervisor**
 - Led the Media and Publications Committee.
 - Published a combined total of twelve (12) self-made graphical/layout and motion designs.

FEU High School, Manila

Jul 2024 – Jun 2025

Asian Hospital and Medical Center

- **Trainee**
 - Attended a week-long seminar to learn about what it is like to be a healthcare worker.

Alabang, Muntinlupa, Metro Manila

Jul 2024

FEU HS STEM Society

- **Layout Artist**
 - Created and published a total of six (6) layout designs for the organization's publication materials.

FEU High School, Manila

Aug 2023 – Jun 2024
